

Fuel Card Manager (Optional Module)

Helping you make the most of your fuel data.

MANAGE EVERY DROP.

With Collective Data's Fuel Card Manager module, users can make their fuel provider information readily available as part of their fleet management software system.

Fuel tracking comes standard with any Collective Data software product, but this integration greatly enhances accuracy, speed, and efficiency by eliminating data entry altogether.

Benefits:

- Help eliminate pilferage
- Manage spending
- Monitor fuel-related maintenance issues
- 1 import comes standard, with the ability to write unlimited import scripts as you see fit
- Manage different types of fuel cards used by the fleet or test new providers
- Assure that accurate fuel data is in your system at all times for reporting and decision making
- Much more
